DETAILED ACTION

Allowable Subject Matter

Claims 1-19 are allowed.

Reasons For Allowance

The following is a statement of reasons for the indication of allowable subject matter: The prior art taken alone or in combination neither discloses nor makes obvious the instant process of claims as a whole. Specifically, the prior art of record, Eldridge et al. (U.S. Pub. 2001/0015652) discloses a method of manufacturing a semiconductor device comprising: forming a through-hole (FIG. 3A: 306 and 308) in the semiconductor element (pages 11-12, paragraphs [0167]-[0168]); and forming a conductive layer (FIG. 3A: 311, 312, and 315) in a region including an inner side of the through-hole (page 12, paragraph [0169]) but fails to teach or suggest the Applicant's steps of (a) forming a hole in an electrode, the electrode formed on a semiconductor element; (b) after the hole is formed in the electrode, forming a through-hole in the semiconductor element so as to be connected to the hole; and (c) forming a conductive layer in a region including an inner side of the through-hole as recited in the currently amended independent claim 1, lines 3-8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
